Child Support Awareness Month

New Jersey serves almost 1 million families.

Thank you, Employers, for reporting your New Hires! Because of your responsiveness and attention to detail in New Hire Reporting, you have made a real difference in the lives of children and families. New Jersey's child support program distributed more than 1.2 billion dollars to families in the last federal fiscal year. Your role in this program has a positive impact for families of New Jersey and beyond.

With thanks for your partnership,
Patricia Risch, New Jersey Child Support Director
